HEALTHY BACK TO SCHOOL TIPS

- Get a 'Back to School' physical
- Schedule eye & dental exams
- Update required immunizations
- Discuss recommendations
- Adjust sleep schedule
- Be mentally prepared

A physical checks overall health and provides you with an excellent opportunity to learn more about immunizations and other health concerns.

This is also a good time to talk about mental health and any learning disparities your child may be experiencing.

Parents, you know your child best. Talk to your child's healthcare professional if you have concerns about the way your child behaves at home, in school, or with friends.

Health care professionals can help with early diagnosis and appropriate treatment based on updated guidelines, which is very important. There are resources available to help diagnose and treat children's mental health needs.

Teachers/School Administrators should know that early identification is important, so that children can get the help they need. They should work with families and health care professionals if there are concerns about the mental health of a child in your school.

To arrange your children's back-to-school health needs, please contact the Tribal Health Center at (605) 997-2642.

Attention Veterans & Family of Veterans

We are creating a comemorative wall in honor of our past and present Akicitas, both men and women of Wakpa Ipaksan who served in the armed forces.

The comemorative wall will be located next to the restaurant along side the Dell Iron Cloud Veteran's mural, just to the left of the Executive Committee portraits.

We would be honored if you would provide a copy of your military enlistment photo (8 x 10) or a picture of a family member who was or is a veteran for display on the wall. We can assist with copying and sizing photos for your convenience.

Call or Text me at (605) 864-7602 or stop by my office for more details.
